Hirschberg,

The well-known Optician of 107 N, Fourth St., (under Planter's House) St. Louis, has appointed W. H. Chedac, of Carson City, Nev. as Agent for his Celebrated Diamond Spectacles and Eyeglasses, and also for his Diamond Non-Changeable Spectacles and Eyeglasses. These Glasses are the greatest invention ever made in spectacles. By a proper construction of the Lens, a person purchasing a pair of these Non Changable Glasses never has to change these Glasses from the eyes, and every pair purchased are guaranteed, so that if they ever leavethe eyes (no matter how rusted or scrutched the Lenses are) they will furnish the party with a new pair of glasses free of charge. W. H. Chedic has a full assortm and invites all who wish to satisfy themselves of the great superiority of these glasses over any and all others now in use, to call and examine the same at W. H. liftely none genuine unless having our name and price stamped plainly on the soles. Your will supply you with shees so stamped if you insist upon his doing so; if you do not insist, some will coax you into buying inferior shees upon which they make a larger profit.

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' & Shoe is in every respect equal to the shoes which only a few years ago were retailed at eight or ten dollars. If you will try on a pair you will be convinced that we do not exagerate. Ours are the original & and & Shoes, and those who imitate our system of business are unable to compete with us in quality of factory products. In our lines we are the largest manufacturers in the United States.

One of our traveling salesmen who is now visiting the shoe retailers of the Pacific Coast and Rocky Mountain Region writes from there as follows:

"I am more than satisfied with the results of my trip. I have thus far succeeded in placing our full line in the hands of A No. 1' dealers in every point I have visited." He goes on to say, "This is a splendid region for us to sell shoes in, because most of the retailers are charging their customers at retail about double the prices which the shoes have cost at wholesale. The consequence is that the people who wear shoes are paying six or seven dollars a pair for shoes which are not worth as much as our JAMES MEANS' \$3 and \$4 \$840ES. Our shoes with their very low retail prices stamped on the soles of every pair are breaking down the high prices which have hitherto ruled in the retail markets here, and when a retailer puts a full line of goods in his stock they at once begin to go off like hot cakes, so great is the demand for them."

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It assures you that if you keep on buying shoes bearing no manufacturers' name or fixed retail price stamped on the soles, you cannot tell what you are getting and your retailer is probably making you pay double on the soles, you cannot tell what you are getting and your retailer is probably making you pay double our name and the fixed retail price upon the soles of our shoes before they leave our factory so that you cannot be made to pay mor
